Projects

Password Generator , JavaScript	06/2025 – 06/2025
Developed secure password generator with dynamic length and character options Improved performance using React hooks (useCallback, useEffect, useRef) and one-click copy functionality via Clipboard API	
Currency Converter , JavaScript · Third-Party API Integration	06/2025 – 06/2025
Consumed open-source Currency API to perform real-time exchange rate conversions using async/await and fetch API	
Brain Bolt— Interactive Quiz Application , ReactJS · Third-Party API Integration	07/2025 – 07/2025
Integrated API for dynamic quiz generation Managed real-time scoring and timer using React hooks	
HrConnect , React, Node, Express, MongoDB, REST APIs	05/2026 – 05/2026
MERN-based ATS where candidates apply for jobs and HRs manage postings, applications, and interviews from a dashboard.	
Football Live Scoreboard , React, Node, Express, REST APIs, Third-Party API Integration	06/2026 – 01/2026
Built a full-stack football live score application with real-time match updates, fixtures, and statistics using third-party football APIs.	
FormFlow , Next.js, MongoDB, Next.js API Routes, REST APIs	06/2026 – 07/2026
Built a Google Forms-like platform with dynamic form creation, response analytics, metadata collection, file uploads, and authentication using Next.js.
